## THE FOLLOWING INFORMATION MUST ACCOMPANY THE POULTRY FEEDING

### OPERATION REGISTRATION APPLICATION. (Contact your local NRCS office for assistance)

1. A diagram or map and legal description showing geographical location of the facility on which the perimeters of the facility are designated, location of waters of the State including but not limited to drainage from the facility, poultry waste storage facilities, and land application sites owned or leased by the applicant or which the applicant has contracted with for the application of poultry waste.
2. A copy of the Animal Waste Management Plan or proof of application for such plan, Best Management Practices, Carcass Disposal Plan, or any other plans authorized by the State Department of Agriculture.
3. A Statement of Ownership.
  - a. If the applicant is a corporation, the name and address of the corporation and the name and address of each officer and registered agent of the corporation.
  - b. If the applicant is a partnership or other legal entity, the name and address of each partner and stockholder with an ownership interest of 10% (ten percent) or more.
  - c. Indicate if not applicable.
4. Environmental History, Records, and Awards
  - a. An environmental history from the past three years of any poultry feeding operation established and operated by the applicant or any other operation with common ownership in this state or any other state. Such environmental history shall include but not be limited to all citations, administrative orders or penalties, civil injunctions or other civil actions, criminal actions, past, current and ongoing, taken by any person, agency, or court relating to noncompliance with any environmental law, rules, agency, order, or court action relating to the operation of a poultry feeding operation.
  - b. A copy of all records relating to the environmental history of the poultry feeding operation.
  - c. Environmental awards or citations received or pollution prevention or voluntary remediation efforts undertaken by the applicant.
  - d. Indicate if not applicable.
5. A verification from USDA NRCS, the U.S. Army Corp of Engineers, or other appropriate entity approved by ODA indicating the new or expanding poultry facility will not be located in a 100 year flood plain.
6. A verification from USDA NRCS, the U.S. Army Corp of Engineers, or other appropriate entity approved by ODA indicating the new or expanding poultry facility will not be located within 300 feet of waters of the state.

**FACILITY** Yes

**TYPE** Poultry

**EPA #**

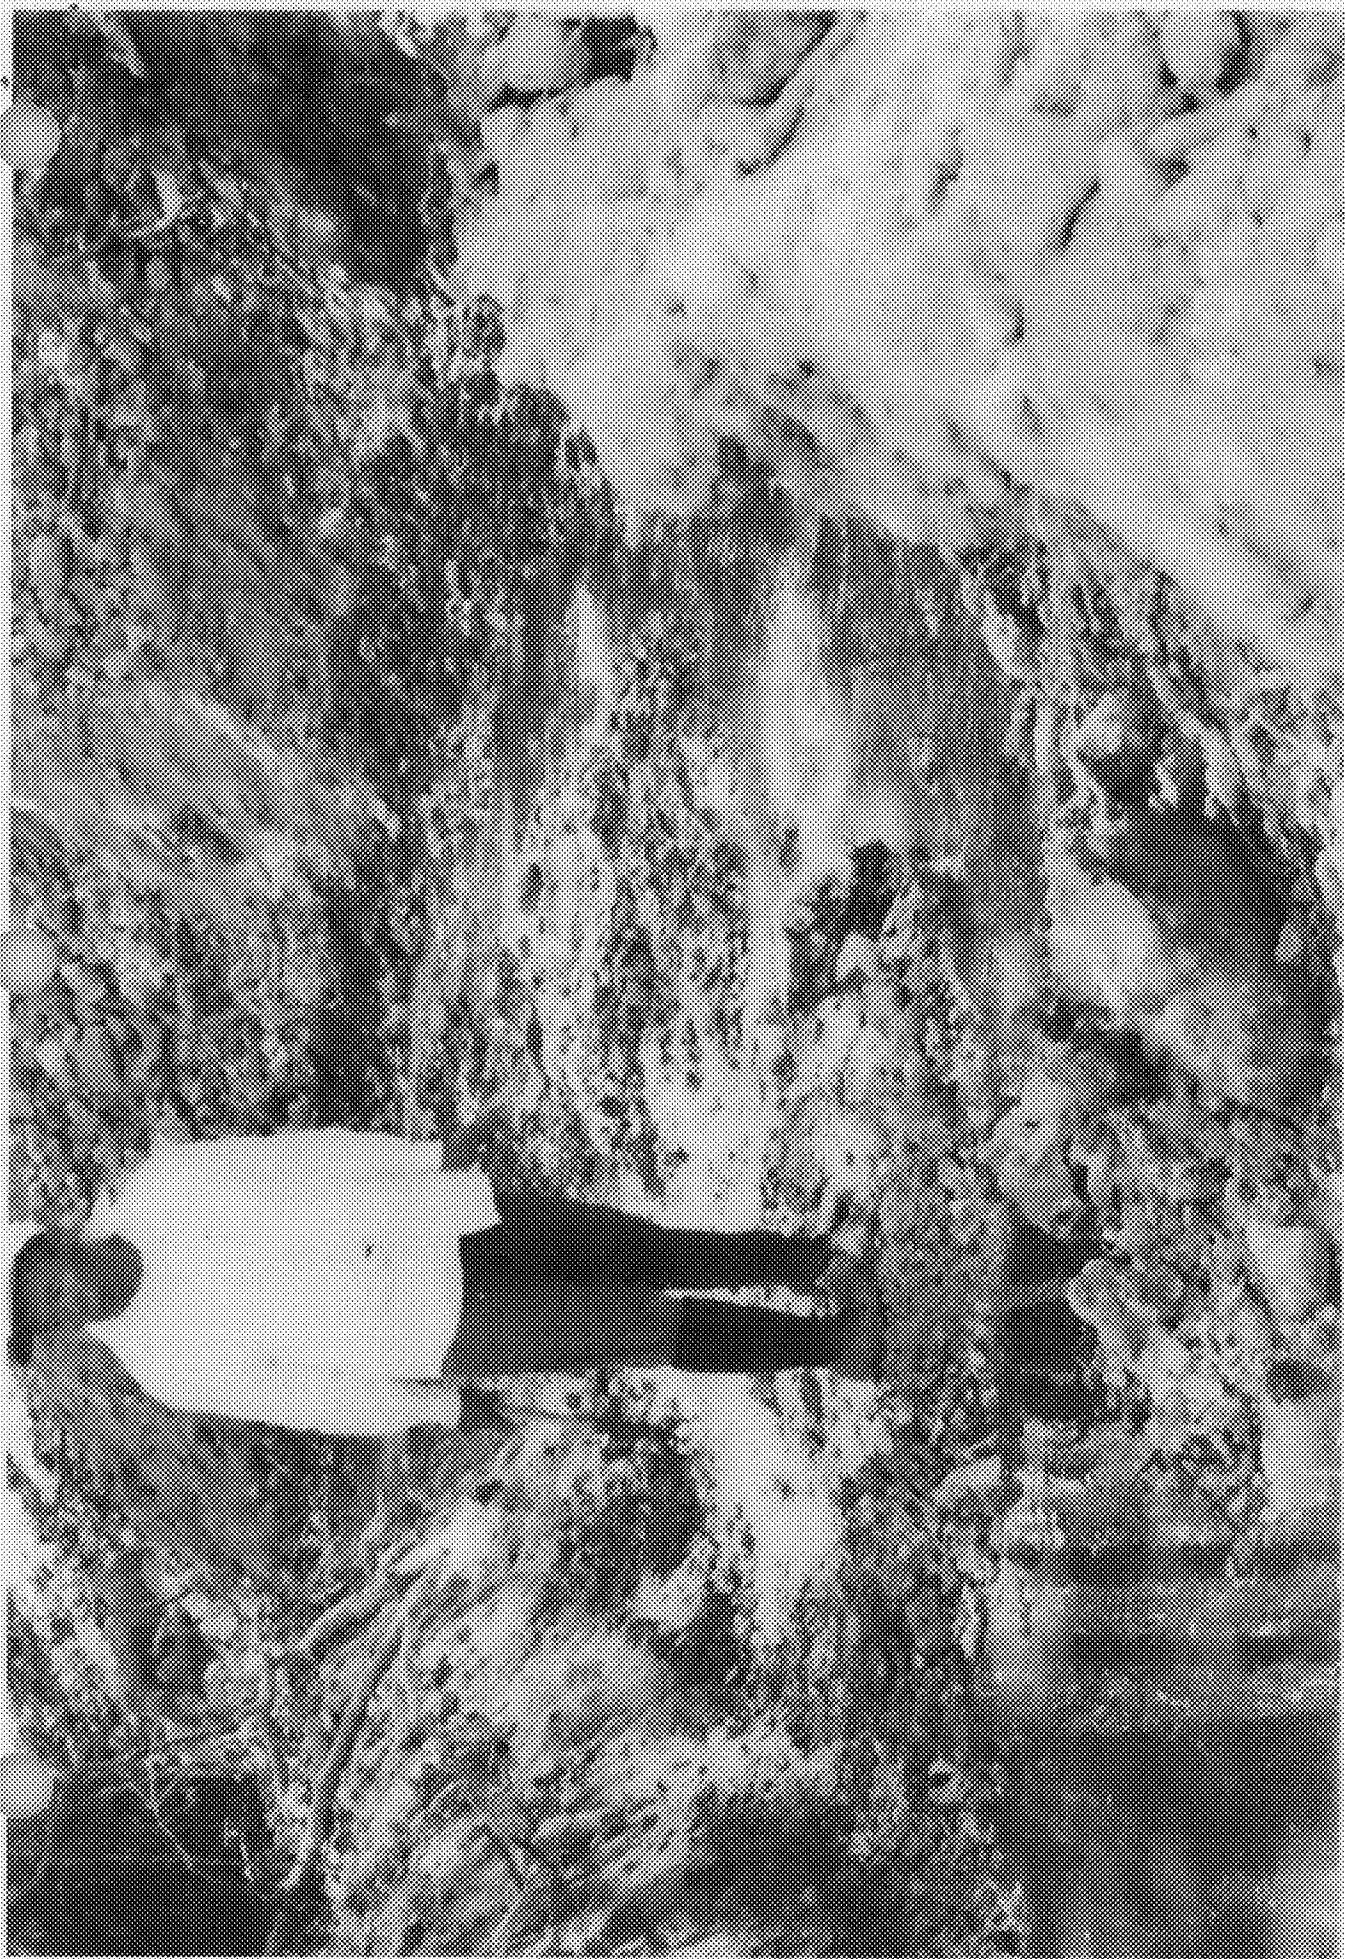

**Complaint Details** Has had problem with well water. Neighbor with chicken houses dug out pond and waste from chicken houses has run into pond. The pond is full of chicken waste. The pond is going into her well. CP has had well water tested and is awaiting results. The man who dug out the pond said he has seen worse ponds, but this one was nothing but chicken waste. Don't know if pond is now dry or has water in it. Can't wash clothes or drink it or take a bath. The guy who tested the water said it kind of looked like algae, but after a different neighbor complained and they detoured the water it has now moved to contaminating her well water.

Voice mail message was left with Inspector Berry with request for call back confirmation that complaint referral was received. Complaint is also being e-mailed to Inspector Berry.

Jonathan with DEQ called her back and told CP that the water did test positive for bacterias - he said more than likely it is coming from the chicken houses. He didn't tell her what kind of bacterias but is waiting for further tests. CP wants Inspector to call her prior to coming out to investigate.
